

Polyclonal antibody services*

	Rabbit	Rat	Guinea pig
In case of peptide synthesis and immunization:	Up to 18 aa long peptide and conjugation to KLH / 5-10 mg of crude peptide will be sent to customer	Up to 18 aa long peptide and conjugation to KLH / 5-10 mg of crude peptide will be sent to customer	Up to 18 aa long peptide and conjugation to KLH / 5-10 mg of crude peptide will be sent to customer
Number of animals:	2	3	2
Number of immunizations:	4	4	4
ELISA testing and test results:	+	+	+
Amount of antiserum:	~30 ml per rabbit	~5 ml per rat (in case of purification antiserum of 2 rats)	~7 ml per guinea pig (in case of purification antiserum of 1 g. pig)
Amount of preimmune serum:	~1 ml per rabbit	~0.1 ml per rat	~0.1 ml per g. pig
Amount of IgG-specific purification:	5 mg of purified antibodies	5 mg of purified antibodies	5 mg of purified antibodies
Amount epitope-specific purification:	From 5 ml of antiserum	From 5 ml of antiserum	From 5 ml of antiserum

* standard protocols
